Professional Summary

PMP® Certified Project Manager, PMO Governance, Reporting & Analytics, Business Transformation, and Certified Corporate Trainer with 16+ years of experience supporting business transformation, executive reporting, workforce analytics, operational governance, and organizational enablement initiatives. Proven track record of delivering reporting solutions for 10+ senior leaders, managing governance across 18+ workstreams and 50+ resources, and driving reporting automation that reduced report preparation effort by 40%. Certified Corporate Trainer with extensive experience delivering over 120 hours of classroom training, facilitation sessions, and knowledge transfer programs. Successfully conducted 80+ training and enablement sessions for 40+ team members and stakeholders, including demonstrations and onboarding programs for the SynOps Command Center. Skilled in Power BI, Tableau, SQL, VBA, performance analytics, stakeholder management, and cross-functional team leadership.

Career Highlights

- Delivered executive dashboards, KPI scorecards, and MIS reporting for 10+ senior leaders, reducing report preparation effort by 40%.
- Led governance reporting across 18+ workstreams supporting 50+ resources and global stakeholder teams.
- Automated reporting processes using Excel VBA, SQL, Power BI, and Tableau, improving efficiency, consistency, and data accuracy.
- Analyzed productivity, utilization, capacity, and operational performance metrics to drive data-backed business decisions.
- Produced executive-level presentations and governance reports for leadership, steering committees, and operational reviews.
- Identified operational risks, trends, and improvement opportunities through root-cause and performance analysis.
- Enabled financial services operations through analytics, workforce planning, governance, and performance management support.
- Certified Corporate Trainer with experience delivering 120+ hours of instructor-led classroom training, workshops, facilitation sessions, and knowledge transfer programs.
- Successfully conducted 80+ training and enablement sessions for 40+ team members and stakeholders, improving operational readiness and user adoption.
- Delivered demonstrations, onboarding programs, and awareness sessions for SynOps Command Center, driving stakeholder engagement and platform adoption.

Project Details

1. Role: Project PMO (Operational Governance for Insurance Diamond Client)

Duration: April 2023 – Jan 2026

- Owned recurring management reporting, executive dashboards, and presentation materials used by senior leadership to monitor operational performance, resource utilization, financial performance, risks, and delivery outcomes.
- Analyzed operational performance metrics and trends, translating findings into actionable recommendations and executive-level presentations.
- Developed and enhanced automated reporting solutions utilizing Excel, Power BI, Tableau, and reporting tools to improve reporting accuracy and stakeholder visibility.
- Managed the validation and maintenance of reporting frameworks, ensuring data quality, reporting consistency, and governance compliance.
- Collaborated with business, operations, technology, finance, and leadership teams to implement reporting enhancements and monitor post-implementation performance.
- Performed root-cause analysis of operational issues, service performance trends, and process gaps to identify improvement opportunities and corrective actions.
- Created executive-ready PowerPoint presentations, steering committee materials, governance updates, and monthly business review reporting.
- Maintained governance documentation, action trackers, project records, decision logs, and reporting artifacts to support audit readiness and operational transparency.
- Partnered with cross-functional teams to monitor program performance, evaluate performance changes, and support continuous process improvements.
- Communicated project status, reporting priorities, risks, issues, and performance updates across multiple organizational levels.

2. Role: Project Coordinator (Proof of Concept (PoC) – RPA Deployment Feasibility)

Duration: Oct 2022 – March 2023

- Led a Proof of Concept (PoC) initiative to assess the feasibility of deploying 20 Robotic Process Automation (RPA) bots for the client.
- Conducted capacity planning, infrastructure readiness assessments, and resource utilization analysis to validate the scalability and operational viability of the proposed bot deployment.
- Collaborated with technology, operations, and business stakeholders to evaluate process dependencies, application compatibility, access requirements, and deployment risks.

- Project Manager Coordination
- Cross-Project Stakeholder Management
- Senior Management Communication
- Executive Briefings
- Program Governance Reviews
- Corporate Training & Facilitation
- Classroom Training Delivery
- Knowledge Transfer Management
- Learning & Development
- Workshop Facilitation
- User Enablement & Adoption
- Technical Demonstrations
- Adult Learning Methodologies

Financial & Operational Excellence

- Financial Forecasting
- Budget Tracking
- Variance Analysis
- Utilization Management
- Operational Reporting
- Business Performance Metrics
- Resource Forecasting

- Process Improvement
- Program Performance Tracking
- Delivery Performance Monitoring
- Operational Governance
- KPI Reporting
- Management Reporting
- Service Delivery Governance
- Program Metrics Reporting
- Performance Dashboard Management

Digital Transformation & Automation

- Microsoft Copilot Enablement
- Robotic Process Automation (RPA)
- AI-Driven Productivity Solutions
- Power BI & Tableau Reporting
- Cloud Technology Adoption
- Automation Opportunity Assessment
- Data-Driven Decision Making

Analytics & Reporting

- Performance Analytics
- Data Analysis
- Business Analytics
- Management Reporting
- Executive Reporting
- KPI Reporting
- Trend Analysis
- Dashboard Development
- Data Visualization
- Report Automation
- Performance Monitoring
- Operational Analytics
- Utilization Analysis
- Capacity Analysis
- Root Cause Analysis
- Forecasting & Planning
- Reporting Governance
- Presentation Development
- Data-Driven Decision Making

Technical Skills / Technologies Supported

PMO & Governance

- Microsoft Project
- Agile Boards (Jira)
- Smartsheet
- Confluence
- RAID Management

Analytics & Reporting

- Power BI
- Microsoft Excel (Advanced Excel, MIS Reporting)
- VBA Excel
- Tableau
- SQL
- SaaS Analytics Platforms
- RAID Management & Governance

Automation

- Microsoft Power Automate
- Blue Prism (Robotic Process Automation)
- Automation Anywhere (Robotic Process Automation)
- UiPath (Robotic Process Automation)

Collaboration

- SharePoint
- OneDrive
- Microsoft Teams
- Microsoft Outlook
- Microsoft Word
- Microsoft Powerpoint

Others

- Kronos Workforce Management Platform
- Verint Workforce Management Platform
- Aspect Workforce Management Platform
- JAVA, React JS
- E-Engg (Linux, C++)
